

CASE STUDY

Logic Air with Redcliffe Homes.

Redcliffe Homes' commitment to sustainable heating technology has seen all 90 homes at their Rowden Park site equipped with Ideal Heating Logic Air heat pumps and pre-plumbed hot water cylinders.

Backed by Ideal Heating's **industry-leading customer service** and support they deliver reliable, efficient heating to meet the growing demand for sustainable solutions in new build homes.

The **Ideal heat pump package** combines three revolutionary products.

1. Monobloc heat pump:

Our quiet, compact and highly efficient monobloc heat pump.

2. Pre-plumbed heat pump cylinder:

Our industry leading pre-plumbed heat pump cylinder.

3. Halo Air:

The Halo Air heat pump thermostat.
