GROUPE ATLANTIC
UK, ROI & NORTH AMERICA DIVISIONS

With a legacy that spans over five decades, Groupe Atlantic have emerged as a leading European player, setting the standards for sustainable heating and hot water solutions.

/ EXPERTISE THAT KNOWS NO BOUNDARIES

Groupe Atlantic boasts a multi-energy expertise that encompasses electric, gas and renewables. This unparalleled knowledge underpins the comprehensive range of heating and hot water solutions, catering to the diverse needs of domestic and commercial sectors. Groupe Atlantic is not just attentive of its markets, it shapes them. The brands that are part of the group, Ideal Heating, Atlantic and Gledhill offer a wide spectrum of products, from water heaters and electric heaters to domestic and commercial boilers and heat pumps.

/ A RICH HISTORY OF INNOVATION

Founded in 1968 in La Roche-sur-Yon, France, Groupe Atlantic has been at the forefront of revolutionising comfort and sustainability. Commitment to excellence has led to the establishment of 31 industrial sites and 43 commercial manufacturing sites, ensuring a presence and impact on a global scale.

/ A GLOBAL PRESENCE

Spanning five continents, Groupe Atlantic is not just a company; it's a worldwide community dedicated to enhancing heating and hot water.

Inside these pages, you'll discover how the Groupe Atlantic's brands Ideal Heating, Atlantic, and Gledhill stand as beacons of innovation, and how its commitment to sustainability drives every aspect of its work.

EXPERTS IN HEATING

UP TO 12 YEARS WARRANTY*

At Ideal Heating, we're experts in heating and we believe in making our installers' lives as easy as possible. That's why we combine ease of installation with high levels of quality and reliability. We rigorously test each and every one of our products with dozens of safety and reliability checks before they leave our Yorkshire based factory. This is why we confidently offer industry leading warranties on our boilers so you can go the extra mile for your customers.

We believe in supporting our installers, not just with great products but with additional training and benefits. Our award-winning, loyalty scheme Connect provides easy warranty registrations, rewards and Gas Safe reminders, whilst our industry leading Expert Academy offers first class training centres and easy to access digital resources offering a range of courses and programmes to benefit you.

A EFFICIENCY RATING

IDEAL THERMSTORE INDIRECT CYLINDER

BOILER CYLINDER   180 210 250 300 400 kW

The Ideal Thermstore range of stainless steel unvented indirect cylinders are manufactured to the highest standards. The range features 8 models and 2 years parts and labour warranty so you can be sure the Thermstore combines the twin demands of excellent product quality and outstanding value.

STANDARD APPLIANCE

> Hot water draw off 22mm compression

> Temperature and pressure relief valve 92-9˚C/6 bar

> Hot water secondary return 22mm (not fitted to cylinders below 210 litres)

> Immersion heater 1¾" BSP 3kW

> Cold supply 22mm compression

> Dual control/overheat thermostat pocket

> Boiler control sensor pocket (spare)

> Primary flow 22mm compression (28mm tailsfor 400 litre model only)

> Primary return 22mm compression (28mm tails for 400 litre model only)

STANDARD APPLIANCE COMPONENTS

> Combination inlet group incorporating pressure reducing valve, strainer, check valve, balanced cold take off point, expansion relief valve and expansion vessel connection points

> Potable expansion vessels complete with flexible hose and wall bracket

> Tundish

> Dual control thermostat and combined overheat thermostat

> Two port 22mm zone valve for primary circuit

> Wiring junction box for primary system

IDEAL THERMSTORE PRE PLUMBED S

BOILER CYLINDER   120 150 180 210 250 300 kW

Our range of pre-plumbed cylinders have been created specifically for the new build market. They offer a 'plug and play' solution which reduces installation time and standardises plumbing configuration across multiple dwelling sites. It offers a 2 year parts warranty and 25 year vessel warranty.

STANDARD APPLIANCE

> Hot water draw off (22mm), including elbow

> 22mm cold supply

> Combination inlet group incorporating pressure reducing valve, strainer, check valve, balance cold take off point, expansion relief valve and expansion vessel connection points.

> Pressure and temperature relief valve 89 - 96°C/6 bar

> Connection for heating expansion relief valve

> Tundish

> Hot water secondary return 22mm

> Cold feed assembly

> Immersion heater 13/4" BSP 3kW

> Wiring junction box

> Manifold assembly

> Central heating zone 1 (22mm)

> Central heating zone 2 (22mm)

> Boiler flow (28mm)

> Dual control/overheat stat (22mm)

> Drain valve

> Connection for heating expansion vessel

> Central heating return (22mm)

> Boiler return (28mm)

> Filling loop

> Manual air vent

> Hot water zone valve

> System pressure operated bypass

> Balancing valve

HALO
THE IDEAL CONTROL

RF))
ZIGBEE RF

Designed specifically to work with any Logic or Vogue boiler range, Ideal Halo RF is a wireless programmable room thermostat that provides simple and easy heating control.

*Halo RF extension to Wi-Fi for an additional fee.

WI-FI

The Ideal Halo Wi-Fi is an internet connected wireless programmable room thermostat, Halo Wi-Fi comes with the same benefits as the Halo RF, but with the addition of app-controlled heating. This includes Geolocation, which gives your customer full control of their heating through their phone or device.
2 ZONE

The Ideal Halo 2-Zone extension kit is an add-on kit for both Halo RF and Halo Wi-Fi offering full modulation on both heating zones.

NO HARDWIRING REQUIRED!

The Halo Combi range can be installed in 4 minutes from start to finish, simply Plug, Pair and Play - no hardwiring is required.

HALO PRE-WIRED SMART INTERFACE MODULE

NO ADDITIONAL CABLE REQUIRED IF PERMANENT LIVE (PL) IS MISSING

When replacing existing Heat only boilers, it is not uncommon to find there is no Permanent Live available at the boiler.

The innovative Halo wiring centre, supplied with the Halo Heat & System range of controls, communicates with the Ideal boiler wirelessly using Opentherm, meaning the existing Switch Live (SL) can be re-purposed as a permanent live, alleviating the need to run additional cables.

HALO COMBI
WI-FI

The Ideal Halo Combi Wi-Fi is an internet connected wireless programmable room thermostat designed to work specifically with your Ideal Boiler.

Halo Wi-Fi allows heating control anytime, anywhere through the flexible and intuitive Halo app. With features such as geolocation and compatibility with smart home assistants such as Amazon Alexa and Google Home Halo provides smart, intelligent heating control.

KEY FEATURES

- ✔ 2 year warranty*
- ✔ Large, clear, colour screen
- ✔ Smart home compatible - control your heating with Amazon Alexa or Google Home
- ✔ Designed specifically to work with Ideal boilers
- ✔ Simple dial and button interface
- ✔ Geolocation for lifestyle based heating
- ✔ Easy app set up walk through to get started

HALO HEAT & SYSTEM
WI-FI

Halo Heat & System Wi-Fi is engineered specifically to work with Ideal boilers and allows flexible control of heating and hot water with the intuitive Halo app, which can be connected through smart home devices like Amazon Alexa and Google Home.

It's simple to install - with up to 50% lesswires needed and clear colour coded and fully labelled connections on the Smart Wiring Centre - as well as being straightforward for everyone to use, no matter where they are.

KEY FEATURES

- ✔ 2 year warranty*
- ✔ Large, clear, colour screen
- ✔ Smart home compatible - control your heating with Amazon Alexa or Google Home
- ✔ Designed specifically to work with Ideal boilers
- ✔ Simple dial and button interface
- ✔ Geolocation for lifestyle based heating
- ✔ Easy app set up walk through to get started

HALO COMBI
RF

Compact and contemporary, Halo is designed to blend into any home. Inconspicuously mounted to the wall or discretely desktop mounted using the stand, Halo will complement a wide range of homes and interiors.

A large, clear, colour screen and intuitive dial and button interface blends ease of use with stylish aesthetics.

KEY FEATURES

- ✔ 2 year warranty*
- ✔ Load compensating control
- ✔ Compatible with Ideal Boilers
- ✔ Easy to install - Plug, Pair and Play
- ✔ Simple dial and button interface

HALO HEAT & SYSTEM
RF

Halo Heat & System RF is a wireless programmable room thermostat designed specifically to work with your Ideal boiler.

Halo offers you fast, flexible and intelligent wireless technology and is packed with an abundance of features that enable simple and easy heating and hot water control.

KEY FEATURES

- ✔ 2 year warranty*
- ✔ Easy to install
- ✔ Load compensating control
- ✔ Compatible with Ideal Boilers
- ✔ Colour coded and up to 50% less wiring
- ✔ Simple dial and button interface

HALO COMBI
2-ZONE EXTENSION KIT

The Ideal Halo Combi 2-Zone extension kit is an add-on kit for Halo Combi Wi-Fi. Turn the Halo Wi-Fi into a 2-Zone system. The Smart Wiring Centre replaces any existing wiring centre to minimise wall space and connects to the boiler wirelessly by a robust Zigbee signal.

With clearly marked connections for zone valves, the SmartWiring Centre helps simplify system wiring. Whilst the wireless communication keeps fully modulating control over both zones.

KEY FEATURES

✔ 2 year warranty*

✔ Wireless connection from smart wiring centre to the boiler

✔ Designed specifically to work with Ideal boilers

✔ Fully modulating through enhanced load compensation on both zones

✔ 2nd space heating zone control

✔ Clearly marked, colour coded connections make wiring simple

HALO HEAT & SYSTEM
2-ZONE EXTENSION KIT

Halo Heat & System 2-Zone Extension is a wireless programmable room thermostat designed specifically to work with Halo Heat & System Wi-Fi controlling a 2nd space heating zone.

Halo offers fast, flexible and intelligent wireless technology and is packed with an abundance of features that enable simple and easy heating and hot water control.

KEY FEATURES

✔ 2 year warranty*

✔ Wireless connection from smart wiring centre to the boiler

✔ Designed specifically to work with Ideal boilers

✔ Fully modulating through enhanced load compensation on both zones

✔ 2nd space heating zone control

✔ Clearly marked, colour coded connections make wiring simple

HALO LITE
RF

The Ideal Halo Lite RF is a single zone combi programmable room thermostat designed to benefit both installers and homeowners.

Boasting a large colour screen and easy to use button and dial interface. It has been tested to ensure it is intuitive and easy to understand.

KEY FEATURES

✔ Compatible with HP290 Monobloc Heat Pump

✔ Wireless

✔ Simple dial and button design

✔ Designed with tenant input

✔ Service timer function

✔ Backlit colour screen with large text and icons

✔ Easy to install

HALO LITE
OPENTHERM

The Ideal Halo Lite OpenTherm Wired Combi is a single zone combi programmable room thermostat designed to benefit both landlords and tenants.

Boasting a large colour screen and easy to use button and dial interface. It has been tested to ensure it is intuitive and easy to understand.

KEY FEATURES

✔ Wired power

✔ Service timer function

✔ Easy to install

✔ Backlit colour screen with large text and icons

✔ Simple dial and button interface

CONVERSION KIT CONTENTS

Each kit comprises:
- Gas valve (preset operation)
- Burner injector
- Data plate labels
- Instructions

The gas valve is supplied preset to enable a quick and easy installation whilst ensuring the safety benefits are retained during conversion.

Mulitple data plate labels are provided in the kits inclusive of a new data plate providing gas details and a label to retain boiler serial number identity.

BOILER
FLUE SITING

There are a substantial number of flue options available with the Ideal ranges, giving excellent siting flexibility for almost all applications. The range of options include standard and telescopic flues as well as roof flue and powered vertical flue options. To ensure siting issues are kept to a minimum, High Level Flue Outlet kit options and Flue Deflector kits are available.

All measurements : mm

Height Difference 'A'
Less than 300   B = 300
Greater than 300   B = 1500

All measurements : mm

| Flue Terminal Position	Min. Spacing
1. Directly below, above or alongside an opening. 300mm	300mm
2. Below guttering, drain pipes or soil pipes	75mm 25mm*
3. Below eaves	200mm 25mm*
4. Below balconies or car port roof	200mm 25mm*
5. From vertical drain pipes or soil pipes	150mm 25mm*
6. From an internal or external corner or to a boundary alongside the terminal	300mm 25mm*
7. Above ground, roof or balcony level	300mm
8. From a surface or a boundary facing a terminal	600mm
9. From a terminal facing a terminal	1200mm
10. From an opening in a car port into dwelling	1200mm
11. Vertically from a terminal on the same wall	1500mm
12. Horizontally from a terminal wall	300mm
13. Horizontally from an adjacent window	600mm
14. Facing an opening into an adjacent building	2000mm
15. At an angle to the boundary	300mm 600mm
16. Parallel to a boundary	300mm
17. Below ground level - open light well	
a) Below ground b)Above floor level c) From side d) From facing surface	<1,000 mm 300mm 300mm 600mm

BOILER FLUE
CONFIGURATIONS

HORIZONTAL CONCENTRIC 100MM DIAMETER
FLUE	PART NO.
Horizontal flue non-telescopic 0.6m	208171
Flue extension 1m with bracket	203129

ALTERNATIVE FLUE TERMINALS	PART NO.
Horizontal flue telescopic 0.5m	208169
Horizontal flue telescopic 0.7m	208174
Horizontal flue non-telescopic 0.8m	217442

HORIZONTAL FLUE WITH 1 X 90° BEND
FLUE	PART NO.
Horizontal flue non-telescopic 0.6m	208171
Flue extension 1m with bracket	203129
Flue bend 90°	203130

HORIZONTAL FLUE WITH 2 X 90° BEND

FLUE	PART NO.
Horizontal flue non-telescopic 0.6m	208171
Flue extension 1m with bracket	203129
Flue bend 90°	203130

HORIZONTAL FLUE WITH 2 X 45° BEND
FLUE	PART NO.
Horizontal flue non-telescopic 0.6m	208171
Flue extension 1m with bracket	203129
Flue bend 45° pair	203131

VERTICAL FLUE SYSTEM
FLUE	PART NO.
Vertical flue terminal and connector	211039
Flue extension 1m with bracket	203129
Flat roof weather collar	152259

ROOF FLUE SYSTEM WITH 2 X 45° BEND
FLUE	PART NO.
Vertical flue terminal and connector	211039
Flue extension 1m with bracket	203129
Flue elbow 45° pair (Ø60/100)	203131
Flat roof weather collar	152259

VERTICAL FLUE WITH LOFT AIR INLET
FLUE	PART NO.
Air inlet for vertical flue	203136
Flue vertical connector	208175
Vertical flue terminal	203134
Weather collar pitched roof	152258
Flue extension 1m with bracket	203129
Flue extension 1m pair (Ø80mm)	203142

HIGH LEVEL FLUE
OUTLET KIT

These easy to install kits allow the boiler flue outlet to be extended external to the building, upwards to provide a flue exit at high level, overcoming problems associated with plume emission. The kit is simple to retrofit if necessary.

An external 60mm diameter flue leads from the boiler terminal (which includes a 90° bend at the flue exit) to terminate with a 90° bend complete with grille. Push fit 1m extension pipes are used as required, and the fixing clips supplied support the system from the wall. Both 90° and 45° bend are available to provide routing options.

The kit comprises:

1 x Flue bend
1 x 60mm flue exit bend
1 x 60mm horizontal flue exit
1 x 60mm x 500mm flue extension pipe

This kit is for use with horizontal non-telescopic and telescopic flue kits 208169, 208171, 208174 and 217442.

The standard terminal nose is replaced with the high level terminal.

| FLUE	IDEAL PART NO.
Horizontal flue non-telescopic 0.6m	208171
High level flue outlet kit (Ø60mm)	208178
Flue extension 1m for high level flue outlet (Ø60mm)	203228
High level flue bend 90° (Ø60mm)	203229
High level flue bend 45° (Ø60mm)	203230

Diagram representative only

NOTE: Please refer to the installation and service manual for assistance in calculating flue lengths. Adequate support must be provided for the flue in accordance with the installation instructions. If additional elbows to those supplied in the High Level Flue Outlet kit are used, deduct the following resistances (metres) from the maximum boiler flue length.
45⁰ Left or Right
Vertical

Horizontal Left or Right

IMPORTANT
Flue must always slope at least 1.5° back to the boiler
RESISTANCE	METRES
90° elbow	1.4
45° elbow (pair)	1.25

NOTE: If additional elbows to those supplied in the High Level Flue Outlet kit are used, deduct the following resistances (metres) from the maximum boiler flue length.

BOILER REAR FLUE & HIGH RISE FLUE OPTIONS

The Logic MAX Heat and Logic+ Heat both come with an optional rear flue outlet which means it can be installed directly behind the boiler rather than on top of it.
REAR OUTLET FLUE TERMINAL (55/80) - 80MM

FLUE	PART NO.
Rear outlet flue outlet kit (55/80)	205990

NOTE: Length is wall thickness. Minimum wall thickness permissible is 115mm. No extensions are permitted.

FLUEING ACCESSORIES	PART NO.
Flue finishing kit (55/80)	206151

LOGIC HEAT ONLY	PART NO.
High level outlet kit (55/80)	205989

NOTE: Please refer to the installation and service manual for assistance in calculating flue lengths. For 1m extension and elbows use standard parts 203228/9 & 30.

HIGH RISE FLUE KIT

FLUE	PART NO.
Horizontal high rise flue (0.6m long)	223629
Horizontal high rise flue (1m long)	224701
Flue extension (1m) high rise	224702
Balcony kit high rise	224703

NOTE: Similar to 208171 but with an aluminium flue duct and unpainted air duct to comply with the revised Building Regulations for buildings over 18m high.

ACCESSORIES

FLUE OPTIONS

When Building Regulations direct that combustible materials must not be used in the external walls of high-rise residential buildings, our high rise flues with an inner aluminium flue duct should be used.

ENERGY EFFICIENCY

WHAT IS ERP?
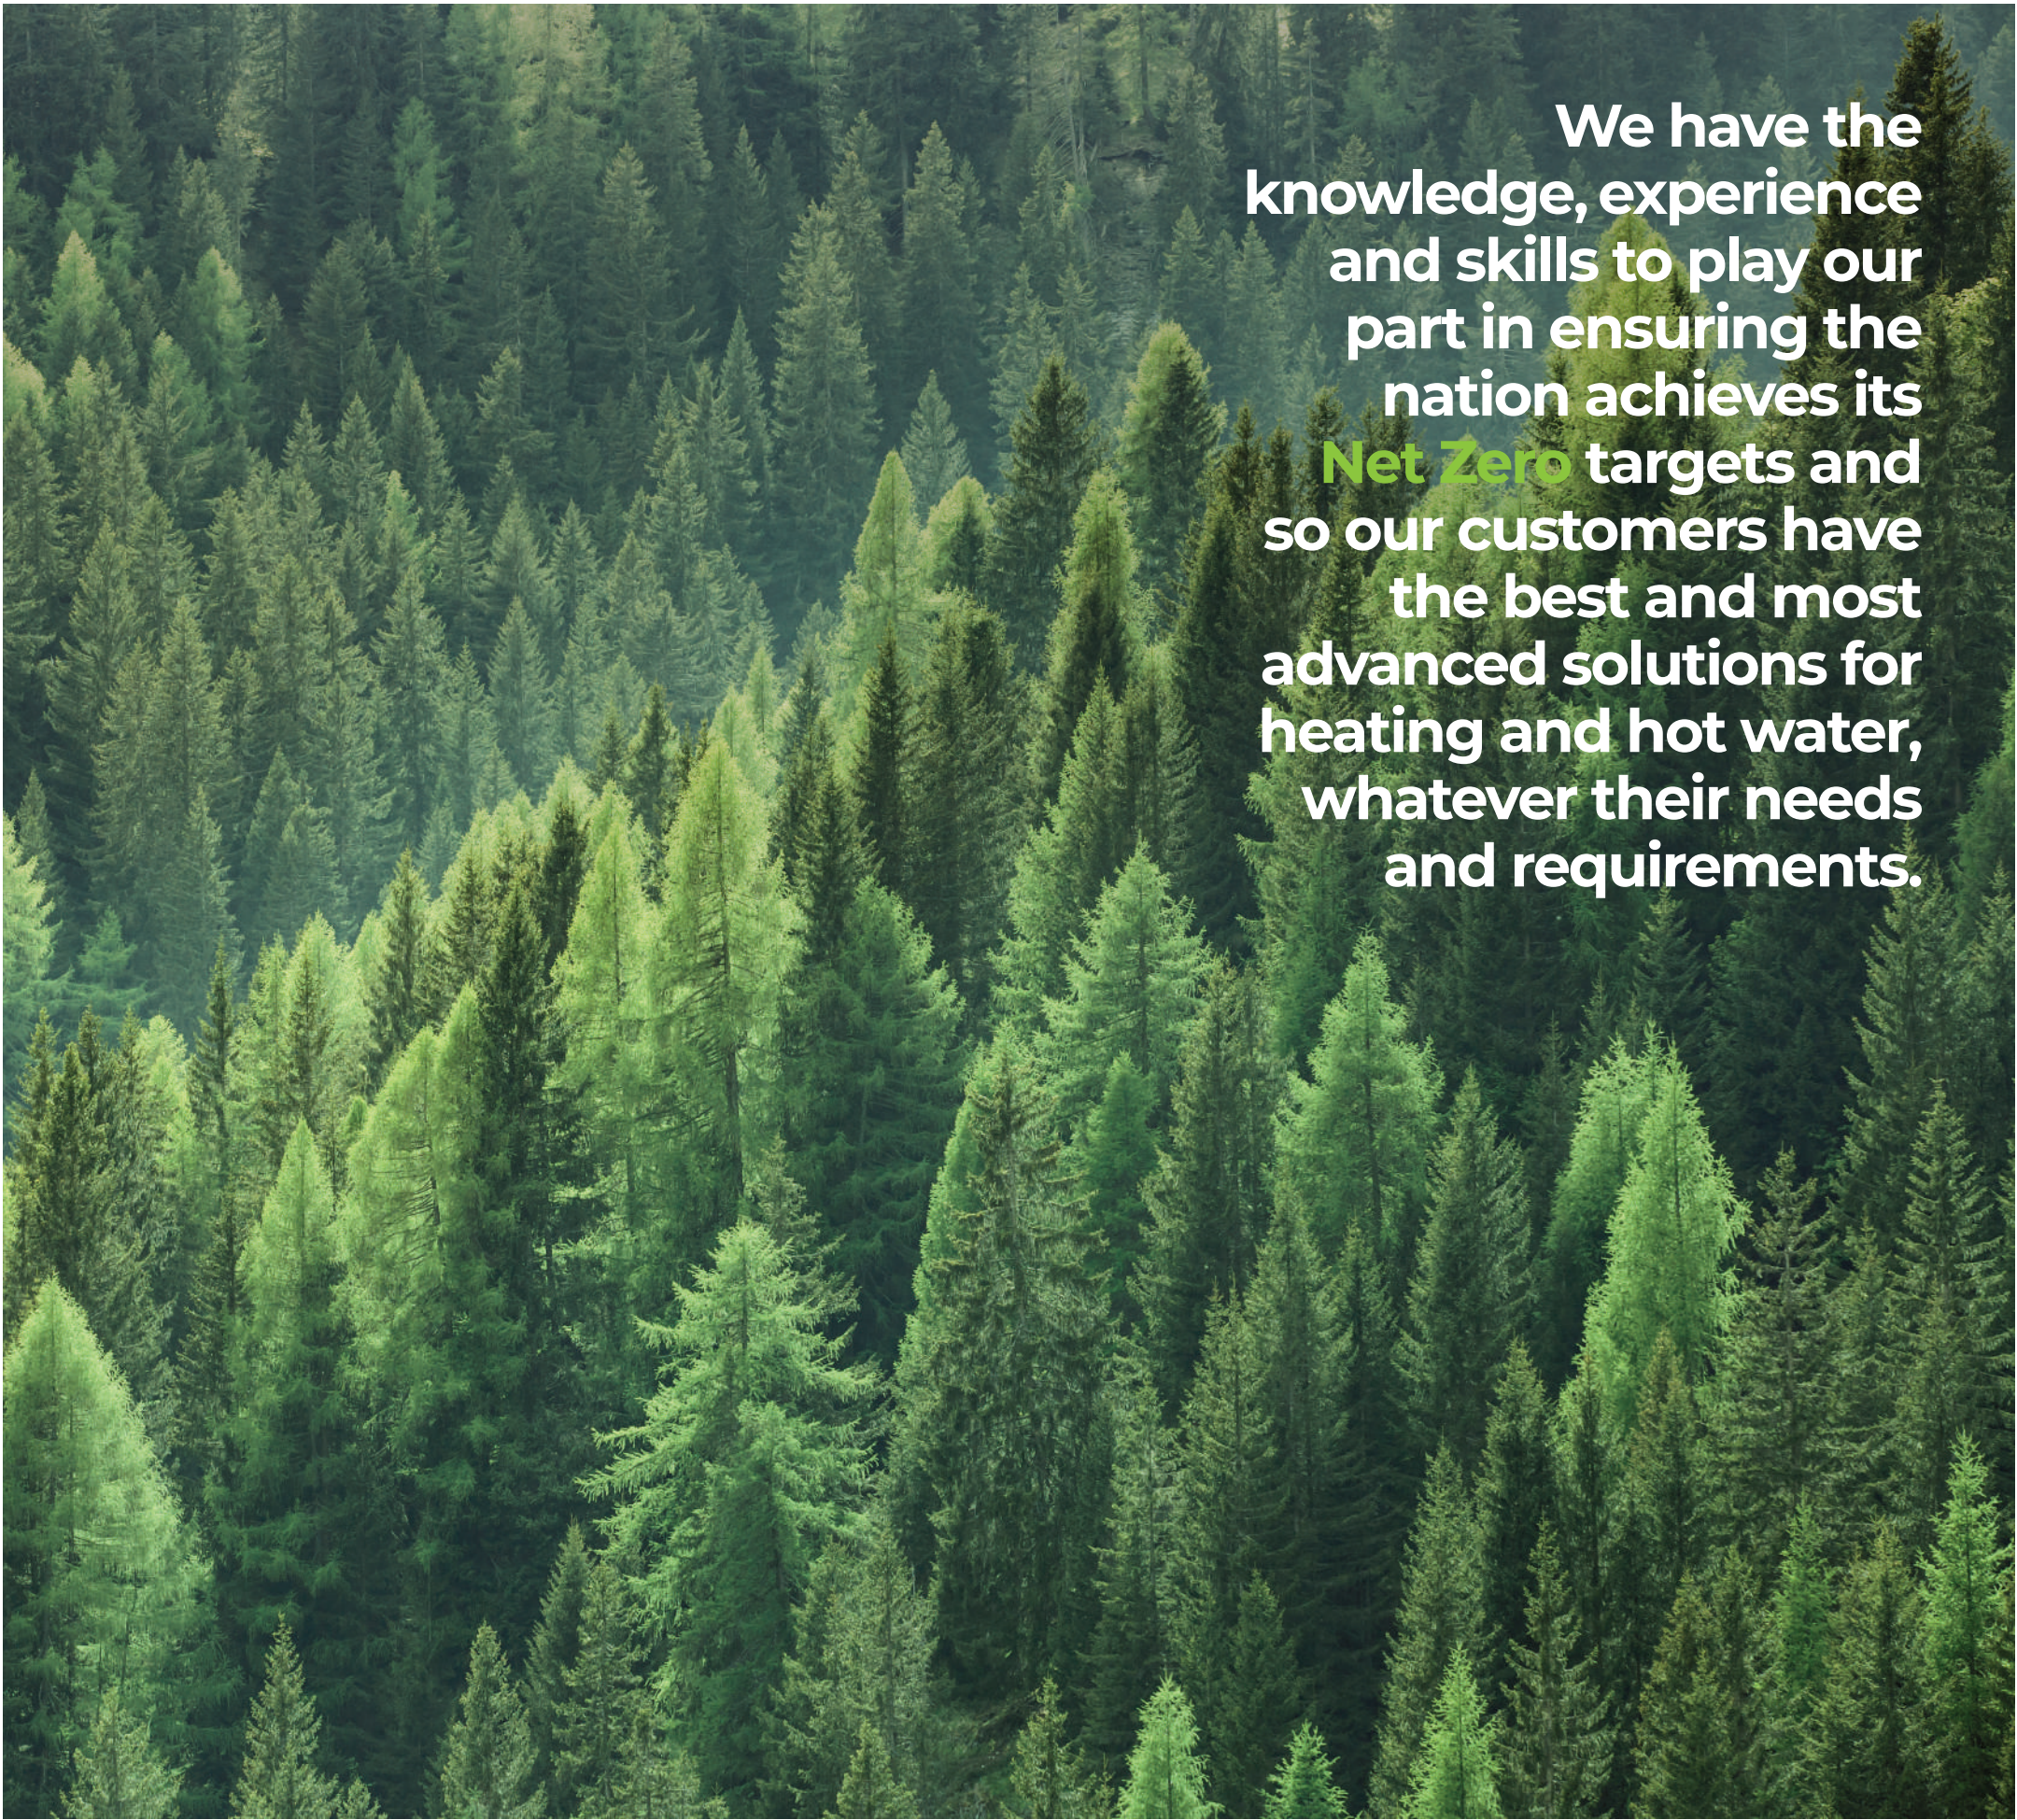

> ErP is a regulation put in place by the European Union to increase the visibility of the efficiency and performance of heating and hot water products, allowing you to be aware of the impact of your purchases.

> Efficiency isn't something you need to worry about when choosing Ideal Heating, as all of our boilers achieve band A levels of efficiency, helping you to reduce your energy bills and carbon footprint.

ALL OF OUR BOILERS ACHIEVE BAND A ERP RATING OF AT LEAST

92%

WHAT IS BOILER PLUS?

> Boiler Plus is a Government regulation that was implemented in 2018, to improve energy efficiency in homes in England.

> Boiler Plus regulations only apply to replacement boilers being installed, so you don't need to worry about bringing your existing boiler up to standards.

> If you're fitting a replacement boiler the good news is that Ideal Heating has everything you need to comply, with all of our boilers achieving at least 92% ErP rating as standard, and a whole range of controls to suit your customers' needs!

We have the knowledge, experience and skills to play our part in ensuring the nation achieves its Net Zero targets and so our customers have the best and most advanced solutions for heating and hot water, whatever their needs and requirements.

'EXPERTS TOGETHER' PRODUCT MATRIX

As you probably already know, we are the UK's experts in domestic heating and Gledhill are the UK's experts in hot water cylinders.

AIR SOURCE
HEAT PUMPS

✓ EFFICIENCY

The efficiency rating of a heat pump determines how much it costs to use. A high efficiency rating means it costs less to operate.
Our heat pumps have one of the highest efficiency ratings in the UK, rated up to 5.19 (Coefficient of performance) making them one of the most economical heat pumps on the market.

✓ SOUND AND DIMENSIONS

Sound and dimensions are important, not just for our customers comfort level, but to MCS and the Planning office. Our heat pumps are quiet and compact. Small enough for permitted development with the local planning authority and cutting edge acoustic technology makes its low sound levels amongst the best in the market.

✓ FAST HEAT PUMP INSTALLATION

Our heat pumps, pre-plumbed cylinders and Halo Air room thermostat are designed to be amongst the fastest heat pumps to install. Factory fitted components, click and connect wiring terminals reduce installation time and improve installation reliability.

✓ HOT WATER

Ensuring enough hot water can be generated efficiently and quickly is crucial to a heat pump system. Our range of pre-plumbed hot water cylinders can generate hot water faster than some of the most popular heat pump DHW cylinders in the UK, saving money and energy.

✓ SIMPLE TO USE, APP CONTROL AND ONLINE HEALTH CHECKS

Halo Air is a new generation of heat pump thermostats connected to your phone with options to connect to our customer service team. Halo Air automatically makes your heating system more efficient, enables remote control and 24/7 system performance data.
All wrapped up in an easy to use controller.

✓ SUPPORT

Our heat pumps, pre-plumbed cylinders and heat pump thermostats are backed by our warranty which covers all parts and labour as well as our award winning technical and customer support offering over the phone, video call and in-person support 364 days a year.

HEAT PUMP TECHNOLOGY

HEAT PUMP CYCLE

Useful Heat

2 Compressor

Water Out

3 Heating & Hot Water

Water In

Heat Exchanger

Condenser

Evaporator

Expansion Valve **4**

1 Ambient Air

1. Capture: The fan passes ambient air over extremely cold liquid refrigerant. The refrigerant captures the heat from the ambient air and becomes a warm vapour.

2. Compress: The warm refrigerant vapour passes through a compressor which produces hot refrigerant and usable heat.

3. Exchange: The heat in the hot refrigerant is then transferred to the heating and hot water cylinder through a heat exchanger.

4. Expand: Once the heat has been transferred to the house, the refrigerant passes through an expansion valve which reduces its temperature, making it cold again and enabling it to capture heat from the ambient air, continuing the cycle.

SOUND PRESSURE AND SOUND POWER

1m

3m

5m

7m

50 dB(A) Average Home

40 dB(A) Quiet Library

35 dB(A) Alfea Heat Pump

30 dB(A) Whisper quiet

Sound power
The way we calculate the sound a heat pump makes is by measuring the sound power and sound pressure. The sound power level is the sound that is emitted from the unit in laboratory conditions and is displayed on the ErP label.

Sound pressure
The sound noise level (sound pressure) measures the level of sound that you hear above the sound that already exists in the background. Sound pressure is lower than sound power.

Quiet Mark
The Logic Air range of heat pumps have all achieved Quiet Mark certification. Quiet mark is associated with the noise abatement society and technically assesses and certifies the quietest heat pumps in the heating industry.

COP & SCOP MEASURES OF EFFICIENCY

COP

Energy collected from the atmosphere

4 kW

Electrical energy in

1kW

HEAT PUMP

5kW

High temperature heat output
COP - COEFFICIENT OF PERFORMANCE

The coefficient of performance (COP) helps us measure the efficiency of a heat pump. The COP calculates the amount of heat energy a heat pump can create from each unit of electricity it uses.

COP = HEAT OUTPUT & ELECTRICAL INPUT

SCOP

Atmosphere

3.5 kW

1kW

HEAT PUMP

4.5kW

Electrical power in

High temperature heat output
SCOP - SEASONAL COEFFICIENT OF PERFORMANCE

The seasonal coefficient of performance (SCOP) is the average COP carried over the annual heating season (the full year).

The Logic Air heat pump range is our new range of monobloc heat pumps, offering great efficiencies both in heating and hot water. The Logic Air is designed to deliver efficient, simple and reliable low carbon heating in homes throughout the UK.

KEY FEATURES

- ✓ Designed for the UK climate
- ✓ Quiet operation
- ✓ Up to 60°C hot water in rain, ice and snow
- ✓ Flexible warranty
- ✓ 364 day a year UK customer service
- ✓ SCOP rating up to 519%*
- ✓ R32 refrigerant

*Performance data in accordance with EN 14825, EN 12102-1, EN 14511. The energy efficiency provided may not correspond to the actual energy once installed in a building, as the efficiency is influenced by other factors such as heat loss in the distribution system and the capacity of the products in relation to building size and characteristics.

OVERVIEW

Taking the learnings from the award winning Logic boiler, the Logic Air heat pump integrates seamlessly with UK homes, partnered with our best in class pre-plumbed hot water cylinder and our connected Halo Air room thermostat, the Logic Air is quick to install, easy to commission and simple to use.

Our new heat pumps are supported by our industry leading customer service and warranty team which is based in the UK and is open 364 days a year, providing customer service and technical support.

The HP290 monobloc heat pump offers a low-GWP refrigerant with high efficiencies.

KEY FEATURES

✓ Low GWP R290 refrigerant

✓ Highly efficient: SCOP up to 500%*

✓ Intuitive control: smart weather compensating controls

✓ Low carbon refrigerant: zero ozone depletion and low global warming potential

✓ Smart grid and solar PV compatible

✓ Monobloc technology enables easy installation and servicing

✓ Domestic hot water: hot, efficient and fast reheat times with the ideal heat pump cylinder range

✓ Flow temperatures up to 75°C

OVERVIEW

The HP290 can provide efficient heating and hot water throughout the year by utilising our pre-plumbed and pre-wired cylinder. The system offers our users an aesthetically pleasing heating solution and when paired with Halo Lite RF, a great user experience.

Our heat pumps are supported by our industry leading customer service and warranty team which is based in the UK and is open 364-days a year, providing customer service and technical support.

LOGIC AIR
AND HP290

PRE-PLUMBED CYLINDER

Our stainless steel pre-plumbed hot water cylinders combine efficiency with practicality. Designed and manufactured in the UK and boasting industry leading reheat times, our cylinders have been designed to store and generate hot water efficiently using a heat pump.

DESIGNED TO FIT IN UK HOMES

KEY FEATURES

- ✓ 60°C DHW
- ✓ 28.5% energy savings*
- ✓ Built in low loss header or buffer tank
- ✓ 49% faster reheat times*
- ✓ Fully pre-plumbed and pre-wired

The Logic Air pre-plumbed cylinder range comes in **16 variants** from **single zone** 150 Litre to **two zone** 300 Litre

NEW COMBINED DHW AND BUFFER CYLINDERS

The new pre-plumbed cylinder range includes models with an integrated buffer. Housing the DHW cylinder and separate buffer tank in the same case, alongside pre-wired circulation pumps and all the standard pre-plumbing components.

NEW LOW LOSS HEADER

Our new pre-plumbed low loss header cylinders de-couple the heating system from the heat pump protecting flow rates and enabling two zone control.

Control box

Built-in three port valve

Low loss header

Immersion

Ideal combined HP filter (magnet and strainer)

Inlet control combi valve

PRV

High temp cut-out

Multi-pass heat exchange

Central heating circulation pumps (single or two-zone)

HEAT PUMPS

HEAT PUMPS
LOGIC AIR AND HP290

SINGLE ZONE PRE-PLUMBED CYLINDER

The single zone pre-plumbed cylinder range offer super fast reheat times thanks to the highly efficient multi-coil heat exchanger. They are also really easy to install since they come pre-plumbed and pre-wired ready for installation with the Logic Air heat pump.

INDUSTRY LEADING REHEAT TIMES

KEY FEATURES

- ✓ fully pre-plumbed and pre-wired
- ✓ Control box included
- ✓ 25 year warranty*
- ✓ uk dimensions: standard and slimline
- ✓ Highly efficient multi-coil heat exchanger

INCLUDES

✓ Control box

✓ Wiring centre

✓ Controller

✓ Low loss header

✓ Heat pump filter

✓ DHW 3-port valve

✓ P&T relief valve

✓ High temp cut out

✓ Expansion vessel

✓ Pressure gauge

✓ Automatic air vent(s)

✓ Isolation valves

✓ 3kW Immersion

✓ 2 x Circulation pumps

✓ Flow thermistors

✓ DHW thermistor

✓ Outdoor sensor

LOGIC AIR
AND HP290

PRE-PLUMBED CYLINDER WITH INTEGRATED BUFFER

The pre-plumbed cylinder range includes models with an integrated buffer. Housing the DHW cylinder and separate buffer tank in the same case, alongside pre-wired circulation pumps and all the standard pre-plumbing components.
INTEGRATED BUFFER

KEY FEATURES

✓ Fully pre-plumbed and pre-wired

✓ Control box included

✓ Integrated buffer

✓ Includes circulation pumps

✓ Highly efficient multi-coil heat exchanger

✓ Slimline options

PRE-PLUMBED LITE

Our pre-plumbed lite cylinders provide all major components pre-plumbed giving a flexible and easy to install solution for any heat pump while also provide industry leading reheat times thanks to our multi-pass coils.

COMPATIBLE WITH
Logic Air and HP290.

KEY FEATURES

- Engineered to provide flexibility for on-site wiring
- Designed to fit in compact spaces
- Perfect for UK homes.
- Industry leading reheat times
- Multi-pass coils which deliver efficient hot water

- 3kW immersion

HALO AIR

ROOM THERMOSTAT

Halo Air is a programmable room thermostat, based on the current Ideal Halo platform that is designed and developed to work seamlessly with the Logic Air monobloc heat pump.

KEY FEATURES

- ✓ Designed for Logic Air
- ✓ Easy to install
- ✓ Full heating and hot water control
- ✓ Load compensating control

HALO AIR WI-FI

Halo Air Wi-Fi is engineered specifically to work with Logic Air heat pumps and allows flexible control of heating and hot water with the intuitive Halo app, which can be connected through smart home devices like Amazon Alexa and Google Home.

It's simple to install, straightforward for everyone to use, no matter where they are.

The addition of the Halo app means homeowners can control their heating at home or on the go, no matter where they are.

*2 year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

HALO AIR 2-ZONE RF

Halo Air 2-Zone RF incorporates an additional programmable room thermostat with the extra functionality of controlling the temperature of a second zone.

*2 year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

HALO AIR RF

Halo Air RF is a wireless programmable room thermostat designed specifically to work with Logic Air.

Halo Air offers fast, flexible and intelligent wireless technology and is packed with features that enable simple and easy heating and hot water control.

It's compact, contemporary design and large, clear, colour screen allow you to maintain heat pump health with on screen service and fault notifications

*2 year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

HALO AIR 2-ZONE WI-FI

Halo Air 2-Zone Wi-Fi incorporates an additional programmable room thermostat with the extra functionality of controlling the temperature of a second zone.

Enabling full smart home compatibility across both zones.

*2 year parts and labour warranty available when registered within 30 days of installation. Terms and conditions apply.

LOGIC AIR

CONTROL BOX

The Logic Air control box is the central hub for the heat pump system, linking the heat pump to your heating and hot water cylinder. It enables in depth control, scheduling, connectivity and performance diagnostics.

INBUILT HEAT PUMP CONTROLLER

Our inbuilt controller uses tried and tested technology to keep you warm efficiently. From scheduling to diagnostics our controller gives you control and transparency.

QUICK START SET UP

Our new quick start menu makes commissioning fast, easy and accurate. In just a few steps the heat pump can be up and running and tuned to its most efficient parameters.

HYBRID READY

For installations that require a heat pump and a boiler, the Logic Air control box brings a boiler and heat pump together seamlessly.

CONNECTIVITY

The Logic Air control box is compatible with Halo Air, Link Cellular heat pump diagnostics and 3rd party thermostats, giving you access to online control, scheduling and remote diagnostics from anywhere in the world.

SMART GRID COMPATIBLE / SOLAR PV COMPATIBLE

The Logic Air control box is smart grid ready and can connect to solar PV, enabling smarter ways of powering heating and hot water.
PERFORMANCE DIAGNOSTICS

The Logic Air control box gives you access to the efficiency of the householders heating system, helping them to understand the health of their heat pump system at a glance.

HP290

CONTROL BOX

239386

The HP290 control box is a hub for a HP290 heat pump system. By bringing all electrical connections to one central location, the HP290 control box enables a fast and simple installation experience.

The HP290 Control Box incorporates the HP290 Controller into a central indoor wiring centre complete with all electrical components providing a quick and simple installation process utilising one cable between the control box and HP290 monobloc heat pump.
HP290

CONTROLLER

241519

The HP290 controller offers a budget friendly and flexible option for those not looking to purchase the HP290 Control Box.

The HP290 controller provides the controls and user interface for the HP290 heat pump without the electrical ancillaries, indoor wiring centre or control box.

ACCESSORIES LIST

FLEXIBLE HOSE

COMPATIBLE WITH Logic Air & HP290.

Ideal Product Code: 236909

- Flexible Hose 500mm
- 28mm -1" Female connections pair (2x hose)
- Pre-insulated (19mm PVC)
- Stainless steel

Ideal Product Code: 236910

- Flexible Hose 750mm
- 28mm -1" Female connectionsPair (2x hose)
- Pre-insulated (19mm PVC)
- Stainless steel

BUFFER TANK

COMPATIBLE WITH Logic Air & HP290.

Ideal Product Code: AH700436

- 25L Buffer Tank
- 1" and 1"1/4 connections
- 6 bar max. pressure

Ideal Product Code: AH700437

- 50L Buffer Tank
- 1" and 1"1/4 connections
- 6 bar max. pressure

ACCESSORIES FOR OUTDOOR UNIT:

LOGIC AIR ANTI-VIBRATION RUBBER MOUNTING FEET

COMPATIBLE WITH Logic Air.

Ideal Product Code: AH809536

- Rubber feet
- Pair (x2)
- 600mm

HP290 ANTI-VIBRATION RUBBER MOUNTING FEET

COMPATIBLE WITH HP290.

Ideal Product Code: 240903

- For HP290 only
- 3 pack
- 600mm

*The product images shown are for illustration purposes only and may not be an exact representation of the product

ADDITIONAL ACCESSORIES:

FILTER BALL VALVE

COMPATIBLE WITH Logic Air & HP290.

Ideal Product Code: 236738

- 1" connections
- 30 bar max. pressure
- Brass – chrome plated body
- Stainless steel & Nylon filter

Y STRAINER

COMPATIBLE WITH Logic Air & HP290.

Ideal Product Code: 236740

- 1" connections
- 16 bar max. pressure
- Brass body
- Stainless steel strainer

MAGNETIC FILTER

COMPATIBLE WITH Logic Air & HP290.

Ideal Product Code: 236911

- 28mm connections
- 4 bar max. working pressure

HP290 CONTROLLER

COMPATIBLE WITH HP290.

Ideal Product Code: 241519

- Standalone controller for HP290
- HP290 only

HP290 HYBRID KIT

COMPATIBLE WITH HP290.

Ideal Product Code: 240932

- Kit for HP290 installations with a boiler
- HP290 only

HP290 2-ZONE SENSOR

COMPATIBLE WITH HP290.

Ideal Product Code: 241520

- Kit for 2-zone HP290 installations (HP290 only)
- Not required if purchasing 241586

LINK DIAGNOSTICS CELLULAR HEAT PUMP

COMPATIBLE WITH Logic Air.

Ideal Product Code: 235545

- Remote Diagnostics
- Online Dashboard
- Designed for Logic Air
- 10 year data plan included
- Only available for Logic Air

LOGIC AIR 2-ZONE KIT

Ideal Product Code: 245625

- 2-zone kit for Logic Air single zone pre-plumbed cylinders with buffer

HP290 2-ZONE KIT

Ideal Product Code: 241586

- 2-zone kit for HP290 single zone pre-plumbed cylinders with buffer

LOGIC AIR CASCADE KIT

Ideal Product Code: 236015

- Cascade kit for Logic Air
- Cascade up to two outdoor units

HEAT PUMP SIZING TOOLS

PLAN YOUR INSTALL

We've built our sizing tools to help make specifying Ideal heat pumps as easy as possible.

Our Heat Pump Estimator helps provide that initial heat loss estimate for you to provide a quote, then our Heat Pump Designer takes it to the next level with a free-to-use room-by-room heat loss calculator so you can get the right Ideal heat pump in your customers property.

ESTIMATOR

✓ Uses properties EPC

✓ Heat loss and performance estimate

✓ Full heat pump, cylinder and accessories list

DESIGNER

✓ Full room-by-room heat loss calculation

✓ MCS 020 Sound calculator

✓ Downloadable property specification and performance report
